Product Specification

3M Floor Graphic Solutions and Wall Decals

3M offers a range of decals that enable and promote social distancing guidelines. These decals can resist scuffing and have the durability to withstand thousands of footsteps. They can be easily applied to and used on multiple surfaces such as floors, walls, countertops or mirrors. These decals can also be removed cleanly from most surfaces without causing any damage to the surface while leaving minimal to no adhesive residue. These decals can easily be customized in any size and shape to meet your requirements. With so many people now staring down at their phones, floors have become a prominent focal point to move people in the right direction. These graphic solutions can be used as a floor guide for visitors, employees and customers to help remind them to maintain a safe distance.

* Popular choice.

3M™ Safety-Walk™ Slip-Resistant Tapes

3M offers various options of slip-resistant tapes and printable material that can be applied on the floor to demarcate an area to promote social distancing. These tapes are designed to be applied on the floor and be durable while being walked on. The yellow and yellow-black tapes are conspicuous on the floor and can help people easily identify them. Additionally, these tapes and printable materials are certified by the National Floor Safety Institute (NFSI), which means that they help reduce slips and falls while helping you to promote social distancing in your facility.

PRODUCT	DESCRIPTION	SIZE	PRODUCT ADVANTAGES	PRODUCT APPEARANCE
* 630	3M™ Safety-Walk™ Slip-Resistant tape 630 safety yellow for light to heavy shoe traffic areas	25mm x 18.2m, 50mm x 18.2m, 100mm x 18.2m. Product Specification

3M™ Vehicle Graphics

3M can support you in differentiating your vehicle and communicating the right message along while you deliver much-needed products and services in these critical times. 3M products can be removed from select surfaces to help restore the look of your vehicle when the communication is not required anymore. There is also an option of using a removable reflective graphic film that can enhance the safety of the vehicle while making the message conspicuous and visible at night. Different films are available to ensure a wide range of applications on surfaces that are flat, rivets and corrugated.
