## ACRYLIC

## ACRYCAST CAST ACRYLIC SHEET

Do you need an easy alternative to glass but don't want to give away strength, durability and clarity? Acrycast® cast acrylic sheet is a premium quality branded product with a pedigree of more than 20 years of performing at the highest levels in world markets. Acrycast sheets are produced from methyl methacrylate monomer and have outstanding physical, mechanical, optical, chemical resistant, and thermal properties. Manufactured from a lightweight, rigid thermoplastic material that has many times the breakage resistance of glass and offers excellent outdoor stability when exposed to the Australian sun.

## PVC BOARD

## PALBOARD

PALBOARD is a hybrid version of Palram's solid PVC and foam PVC. This new breed of multi-layer PVC combines the extra-tough surface quality of solid PVC with the lightweight, easy-to-use characteristics of a foam PVC core made from recycled PVC. This marks a significant step toward Palram's overarching goal to improve sustainability and reduce plastic waste. PALBOARD has an ultra-smooth surface that offers excellent ink-adhesion for digital and screen printing applications. It's easy to fabricate, can be cold-bent with a v-groove cut, and provides good mechanical strength and excellent chemical resistance. This makes it ideal for a wide variety of interior sign, display, or other applications.

## POLYCARBONATE

## PALSUN

Palsun Polycarbonate combines a unique variety of features, including strength, transparency, low weight, flexibility, durability, thermal and fire resistance. Palsun is as transparent as glass, 200 times stronger and less than half the weight. Palsun's absolute resistance to breakage qualifies it as the best existing safety glazing material available, with impact resistance that is impervious to hammer blows, stones etc. Palsun is ideal for use in areas exposed to vandalism and in cases of high impact. Palsun can also be machined and formed into a wide variety of tough and durable fabrications.

## ABS AND PETG

## ABS

ABS provides the optimum balance of tensile impact strengths. Featuring ease of forming, excellent toughness and rigidity it is particularly good for deep draw vacuum forming for products likely to receive abuse in the form of knocks, scuffing and scratching. ABS also has good chemical resistance and flight offers a variety of grades of ABS including specialist high heat and flame retardant resins as well as different gloss finishes.

## PETG

PETG sheets are a versatile panel made to a high-quality standard with superior properties. PETG Sheets are light, extremely resistant to breaking, and highly transparent. In addition, PETG sheets are resistant to weathering and depending on the application, UV stable. Their good fire behaviour makes these sheets a reliable solution in many fields of application. Easy forming at low temperatures saves energy and allows shorter cycle times, as well, the wide application spectrum of PETG sheets ranges from deep-drawn parts to shop equipment up to protective linings as well.

### 3M 2080 WRAP FILM SERIES

3M 2080MC ControTact™ Wrap Film with Comply™ adhesive series is a 50 micron cast vinyl film available in a range of colours. It has a pressure-activated adhesive for easy sliding, tacking, snap-up and repositioning. The film is soft and uniquely conformable to surfaces, with and without rivets, simple curves, compound curves and corrugations. 3M 2080 has Micro Comply™ adhesive with non-visible air release channels for fast and easy, bubble-free graphic installations. 3M 2080 series features a protective film layer, giving the wrap film greater protection during installation. The film features a greater warranty of 7 years vertical life and 2 years horizontal life.

**3M 2080 WRAP FILM SERIES**

3M 2080MC Controltac™ Wrap Film with Comply™ adhesive series is a 50 micron cast vinyl film available in a range of colours. It has a pressure-activated adhesive for easy sliding, tacking, snap-up and repositioning. The film is soft and uniquely conformable to surfaces, with and without rivets, simple curves, compound curves and corrugations. 3M 2080 has Micro Comply™ adhesive with non-visible air release channels for fast and easy, bubble-free graphic installations. 3M 2080 series features a protective film layer, giving the wrap film greater protection during installation. The film features a greater warranty of 7 years vertical life and 2 years horizontal life.

**3M 7725**

3M 7725 is a vinyl cast film perfect for prespaced, cut multi-colour graphics for emblems, vehicles, labels, striping, signs and two-way window markings. The transparent synthetic liner resists moisture absorption and static buildup, lays flat for easier assembly of multicoloured graphics. The film has superior cutting/weeding and pressure sensitive adhesive for flat or simple curved surfaces. 7725 is perfect for general signage, windows, small lettering and fine detail work, multi-layered graphics and wet application. Up to 12 years outdoor durability.

## SPRAY AND MASKING FILM

**GENERAL FORMULATIONS 851 YELLOW PAINT MASK**

GF 851 yellow paint mask is a 85 micron yellow calendered vinyl film coated with removable acrylic adhesive. The vinyl is formulated for ease of cutting while retaining resistance to common solvents encountered in typical spray paints and automotive finishes. In combination with the removable acrylic adhesive this product has the tack to withstand edge lifting in normal painting processes while removing cleanly after the paint has dried. The 78# bleached kraft liner provides an excellent base for plotter cut graphics.

**TEC7 TRANS INOX**

Tec7 Trans Inox is a high-quality, semi-transparent sealant. This means that the sealant is transparent in thin layers, but is metallic coloured opaque in thicker layers. This offers many advantages when sealing thicker joints in metallic coloured materials, or at the lines of transition between different coloured substrates. Trans Inox continues to be elastic, watertight and fungus resistant. Based on MS polymers, offering excellent adhesion and sealing applications. Additionally, Trans Inox offers excellent adhesion, even on damp surfaces.
